NOTES:

**GENERAL INFORMATION:**

The MAXIBUNNY PURE 4L 55 is a refined in-ground luminaire that draws two balanced blades of light across surfaces, creating rhythm and depth along architectural pathways. Engineered with a corrosion-resistant stainless steel frame, it merges structural strength with a clean, geometric presence that disappears into the pavement. Its controlled optical system minimizes glare while enhancing textures in stone, concrete, or wood, allowing materials to come alive after dark. Designed for demanding outdoor settings, it delivers quiet durability and expressive precision in equal measure.
