

**BULLARD
BOLLARDS**
Think Bollard Think Bullard

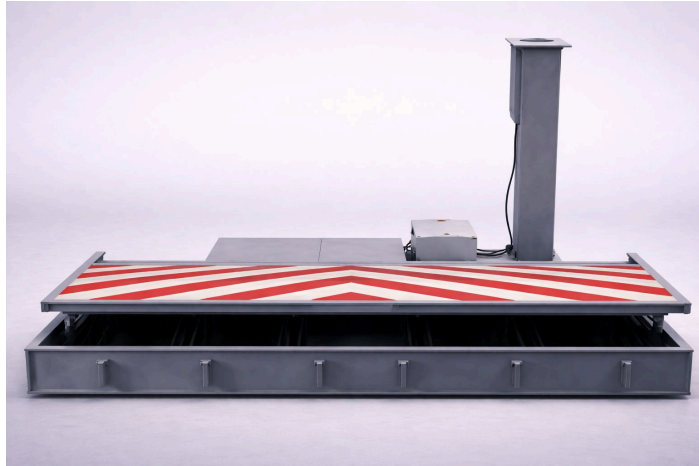

THE FORTRESS (SECURITY SYSTEM)

FIXTURE TYPE: _____

PROJECT NAME: _____

ASTM F2656-M50 Certified
Electro-hydraulic (Hybrid) or pure hydraulic

GENERAL INFORMATION:

The security system is designed to provide high reliability, simplified maintenance, and seamless integration into existing site infrastructure. The drive mechanism utilizes a single actuator system with no spring assist or counterweighting, reducing mechanical complexity and minimizing long-term maintenance requirements. The control architecture is designed for maximum flexibility and compatibility. While manufacturer-provided control support is available, the system does not require proprietary software. This allows integration with owner-furnished control systems and supports custom sequences of operation in accordance with site-specific security and operational requirements.

FIXTURE TYPE:

Illuminated Security Bollard

VOLTAGE:

110-277V 

MATERIAL:

Stainless steel

LENS:

Acrylic

IP RATING:

IP 65 

WARRANTY:

Products are warranted for 5 years.

APPLIANCE CLASS:

I 

DRIVER POSITION:

Integrate

MAIN FEATURES:

- High visual comfort
- Available in a wide range of finishes
- Functional and minimalistic design
- Shock-resistant construction
- Operating Temperature: -104°F to +140°F.
