# BUNNY PASS

FIXTURE TYPE: \_\_\_\_\_

PROJECT NAME: \_\_\_\_\_

NOTES:

**GENERAL INFORMATION:**

BUNNY PASS it is a series of recessed wall luminaires with reduced recessed depth. They are designed for lighting of paths, stairs and passages with diffused light. The construction of the body, in aluminum alloy with high resistance to oxidation, treated with nano-bonderite and protected with polyester powder-coating, make the product resistant to atmospheric agents and UV rays, guaranteeing maximum protection over the years. The silicone gaskets ensure maximum sealing in all operating and temperature conditions. The diffuser in tempered sodium calcium glass finished with silk-screen printing and beveled edge gives a touch of class to the fixture. The product is installed with a standard polystyrene rough-in housing and is suitable for both concrete and conventional walls. The drywall version is easy to install with harmonic steel springs.
