FIXTURE TYPE: _____

PROJECT NAME: _____

-SPH.00.5484

-SPH.00.5486

GENERAL INFORMATION:

Series of projection lighting fixtures for pole, wall, and ground installation. Available in two sizes, rotatable and tilting on the vertical axis, designed for lighting parking lots, bike paths, plazas, facades, green areas, perimeter areas and other architectural elements thanks to a wide availability of optics and wattage. THE SPACESHIP comes with a range of accessories that enable different types of mounting. The construction of the luminaire in aluminum alloy with high resistance to oxidation and subjected to treatment with nano-bonderite and textured polyester powder coating make the product resistant to weathering and UV rays, guaranteeing maximum protection over the years. Silicone gaskets ensure maximum sealing in all operating and temperature conditions. The ultra-clear tempered sodium calcic glass diffuser ensures maximum light transmittance. The hardware is completely made of stainless steel.

FIXTURE TYPE:

Urban Luminaires

LIGHTING

LED

LED

VOLTAGE:

110-277V

MATERIAL:

Die-casting aluminum finishing

LENS:

B57

CRI:
